the deciphering of the indus script has met with suspicion and is exposed to ridicule even many people are nowadays of the opinion that the indus script is altogether indecipherable if not a bilingual of considerable size turns up the approach to a decipherment presented in this volume makes avail of a bilingual too but its masterkey is the discovering of the symbolic connection of the indus signs with the metaphoric language of the rg veda nearly 200 inscriptions among them the longest and those with the most interesting motifs have been decoded here by setting them syllable for syllable in relation to rg vedic verses the results that were gained by this method for the pictographic values of the indus signs are surprising and far beyond the possibilities of the most daring phantasy at the same time many problems of the rg veda could be solved or new insights be won
